On 1 October 2006 the benchmark changed from MSCI Emerging Europe Index to MSCI Emerging Europe 10/40 Index (new index to be "spliced" with the history of the old benchmark). The Annual Management Charge for this Fund increased from 1.5% to 2% effective 21 October 2005. The Fund invests in certain smaller and emerging markets. The prospects for economic growth in a number of these markets are considerable and equity returns have the potential to exceed those in mature markets as growth is achieved. However, there are risks to the Fund from political, economic and market factors in smaller and emerging markets which are of particular significance. This applies to UK residents only. ■ BIM(UK)L Risk Grading: High Risk (on a scale of Low, Medium, Medium/High and High). This grading applies to Funds with emerging market, small capitalisation, or narrowly focused/concentrated equity mandates, which may restrict liquidity and increase the volatility of returns. It should only be used for comparison with other BlackRock Global Funds (BGF) and, in particular, should not be used in comparison with Funds not provided by BIM(UK)L. The grading is indicative of the level of risk of a particular Fund and is not supposed to be a guarantee of likely returns. If you are in any doubt as to the level of risk that you should take, you should seek Independent Advice. ■ This factsheet is available to Qualified Investors and Professionals in some jurisdictions on a limited private placement basis subject to applicable laws and regulations in the country of distribution. The factsheet is confidential and should not be reproduced or distributed to persons other than the recipient. Performance is shown as of the date listed on the top of the sheet on a NAV price basis with income reinvested. Prior to the introduction of single pricing on 4 February 2002, bid prices were used for Funds previously within the Mercury/Selected Trust range. Performance figures are calculated net of annual fees. The above Fund data is for information only.
