* The Annual Commission figure is made up of Distribution Commission of 0.50% and Annual Commission of 1.5%. ■ This fund has high exposure to derivatives, particularly covered call options. The use of derivatives may expose Funds to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions are geared. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. While the Enhanced Enhanced Equity Yield Fund seeks to provide high income yields, this figure is not guaranteed and the payment of income may result in the erosion of fund capital. All Rights Reserved ■ BIM(UK)L Risk Grading: Medium/High Risk (on a scale of Low, Medium, Medium/High and High). This grading applies to Funds which may be expected to have all, or at least a high proportion, of their assets invested in equities, or in bonds rated below investment grade. It should only be used for comparison with other BlackRock Global Funds (BGF) and, in particular, should not be used in comparison with Funds not provided by BIM(UK)L. The grading is indicative of the level of risk of a particular Fund and is not supposed to be a guarantee of likely returns. If you are in any doubt as to the level of risk that you should take, you should seek Independent Advice. ■ This factsheet is available to Qualified Investors and Professionals in some jurisdictions on a limited private placement basis subject to applicable laws and regulations in the country of distribution. The factsheet is confidential and should not be reproduced or distributed to persons other than the recipient. Performance is shown as of the date listed on the top of the sheet on a NAV price basis with income reinvested. Prior to the introduction of single pricing on 4 February 2002, bid prices were used for Funds previously within the Mercury Selected Trust range. Performance figures are calculated net of annual fees. The above Fund data is for information only. The number of shares quoted for each fund are indicative and actual numbers may fall outside of the ranges shown. BGF is an open-ended investment company established in Luxembourg. Subscriptions in BGF are valid only if made on the basis of the current Prospectus, the most recent financial reports and the Simplified Prospectus which are available on our website.
